

WAREHOUSE INTEGRATION

Use our Warehouse Integration solutions to integrate any warehouse software with your Microsoft Dynamics® GP system.

CONNECTING YOUR WAREHOUSE AND BACKOFFICE

Blue Moon's Warehouse Integration solutions help your backoffice work more effectively with your warehouse, improving accuracy, efficiency, and customer satisfaction.

Warehouse Integration solutions enable you to release documents to the warehouse system for processing, and later receive the documents for final processing in the backoffice.

MORE THAN "MIDDLEWARE"

Beyond document exchange and core integration functionality, important distribution enhancements are included for Microsoft Dynamics GP.

- Order release management controls
- Special instruction communication tools for orders such as fulfillment, store names, EDI, bill-to, ship-to, picking, price label, and receiving information
- Hazardous materials coding for inventory items
- Available track and trace information for all items shipped
- Automatic sales transfer, invoice printing and posting
- Support for complete integration with EDI/ASN

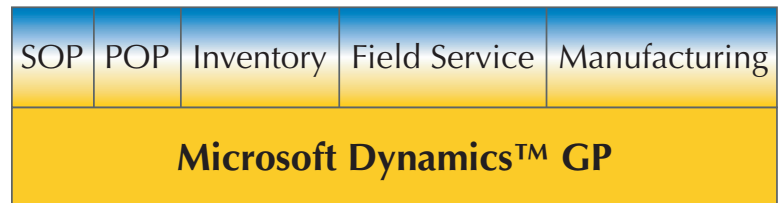

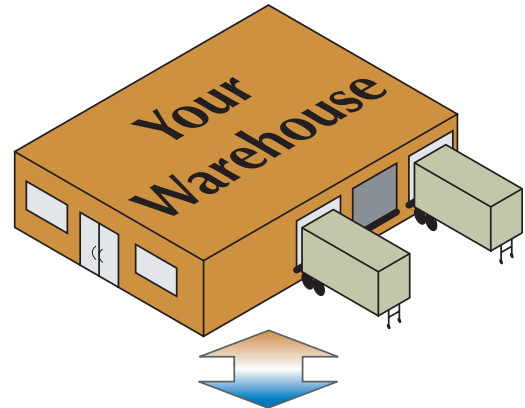

PARTNERING FOR SUCCESS

When you implement a Warehouse Integration solution, you gain a consultative partner in Blue Moon Industries. Blue Moon will help you assess your integration needs and work as an extension of your team to ensure the success of the project.

A PROVEN SOLUTION

Warehouse Integration solutions are currently being used to integrate Microsoft Dynamics GP with solutions from the following WMS and fulfillment system industry leaders:

- Manhattan Associates
- Accellos
- KARE Technologies

INTEGRATE WITH ANY WAREHOUSE SOFTWARE

SCALABLE SOLUTIONS The solution seamlessly integrates with any range of automated fulfillment systems, from basic shipping to full-featured warehouse management.

OPEN PROTOCOL ARCHITECTURE The solution uses an open protocol for document exchange, ensuring warehouse systems require no programming specific to Microsoft Dynamics GP.

ENHANCED DISTRIBUTION TOOLS The solution includes functionality related to order fulfillment, PO & container receiving, MO materials picking, MO finished goods receiving, RMA receiving, and RTV fulfillment.

SEAMLESS INTEGRATION WITH THE BACKOFFICE The solution was created using the Dexterity® development environment to ensure seamless compatibility with Microsoft Dynamics GP. The result is a common look and feel and an easy upgrade path.

WAREHOUSE INTEGRATION

Uncommon Commitment - Outstanding Results
